

# RAPTOR-GAMING LG1

## PRODUCT

(illustration – original may differ)

The RAPTOR-GAMING LG1 GameController is the first in the line of products, especially designed for sports games. The neat matt black looking GameController features the for RAPTOR-GAMING-products common soft-touch surface. This ensures that the fingers can't slip off the GameController. The 2.5m long wire is spaciouly measured. Since the RAPTOR-GAMING LG1 can be used for PC and Playstation 2 via the attached converter, it is a real all-rounder. Therewith you don't need to adapt to another GameController anymore, if you change between these platfforms.
